Professional Summary

Senior Frontend Developer with 7 years of experience building web and mobile products in React, Next.js, and TypeScript. Currently leads frontend delivery for Bank of Queensland internet banking at NRI ANZ, including secure customer journeys, mentoring, code review, and CI/CD on GitHub and Azure DevOps with Jest and Playwright. For the past two years, uses Cursor, Claude, Codex, and GitHub Copilot in daily frontend work and reviews AI-generated code before it ships. Previous work covers React Native logistics products, analytics dashboards with Chart.js and D3.js, legacy modernization, and enterprise APIs in Java, Spring Boot, and Oracle SQL.

Skills

Languages: TypeScript, JavaScript, HTML5, CSS3, SQL

Frontend: React, Next.js, React Native, Tailwind CSS, Material UI, SCSS, Bootstrap, responsive UI

State management: Redux, Redux Toolkit, Redux-Saga, Zustand, React Context

Testing: Jest, React Testing Library, Playwright, Vitest, Postman

APIs: REST, GraphQL, Axios

Cloud and delivery: Azure, Azure DevOps, GitHub Actions, Jenkins, Docker, AWS (S3, EC2, CloudFront), CI/CD

Backend: Java, Spring Boot, Oracle SQL, PostgreSQL

AI-assisted development: Cursor, Claude, Codex, and GitHub Copilot for 2 years. Daily use for implementation, refactors, and tests, with review of generated code before it ships.

Practices: Agile, code review, technical mentoring, web accessibility, ESLint, Prettier, Git, GitHub, GitLab, Jira, Figma

Professional Experience

Senior Frontend Developer

NRI ANZ · Bank of Queensland internet banking · February 2025 – Present

- Lead frontend delivery for internet banking customer journeys in Next.js, React, and TypeScript, with security and scalability requirements for a regulated bank.
- Mentor and onboard developers, and run code reviews focused on reliability, accessibility, and consistent UI patterns.
- Improve CI/CD on GitHub and Azure DevOps so Jest and Playwright run before deployment to Azure Web Apps.
- Partner with product, design, and backend teams so frontend architecture matches delivery and business goals.

Senior Frontend Developer

Helika.io · February 2024 – November 2024

- Delivered analytics dashboards in React and Next.js using Chart.js and D3.js for data-heavy product views.
- Kept large chart surfaces responsive by sharing visualization patterns instead of building one-off chart implementations.
- Set frontend review standards and supported recruitment and onboarding of developers.
- Shipped with Redux, Jest, Material UI, AWS, and Docker.

Full Stack Developer
TwistResources Inc. · March 2023 – March 2024

- Modernized legacy user interfaces with React, Next.js, and TypeScript so operations teams could change the product with less risk.
- Designed SQL queries and REST API integrations, including Spring Boot services, to support the frontend.
- Mentored developers through code review and technical guidance on shared TypeScript models.
- Contributed React Native features where the product required a mobile client.

Senior Frontend and Mobile Developer
Entrego · May 2021 – March 2023

- Supervised the frontend and mobile team, balancing feature delivery with mentoring.
- Built logistics product screens in React Native, React, and Next.js, using Redux-Saga, Tailwind CSS, and Jest.
- Modernized the stack to reduce technical debt and improve frontend performance.
- Facilitated Agile ceremonies so the team could sequence work and surface risk early.

Associate Software Engineer
Accenture Inc. · October 2018 – May 2020

- Developed enterprise applications with Java, Spring Boot, Oracle SQL, and REST APIs.
- Improved database query performance and application stability for client systems under strict delivery requirements.

Education

Bachelor of Science in Mathematics, major in Computer Science
Bulacan State University, Malolos, Bulacan · June 2013 – June 2018
